

NOZZLE RACK / NOZZLE BAG / FLOOR CLEANING

Nozzle rack

Stainless steel rack for nozzles. Fits up to 5 nozzles.

Art. No.	Description
36782	Stainless steel

Nozzle bag

A practical and hygienic nozzle bag that offers cleaning staff accessibility and better control of their tools. Using a simple fastener, the bag can be attached to the belt. When work has been completed, the bag and its contents can be cleaned in a dishwasher.

Art. No.	Description
30980	Nozzle bag with belt

Rotating Floor Cleaning

Floor cleaning equipment for fast and easy cleaning of flat surfaces with high water pressure. Is used preferably in facilities with open and large spaces. The equipment has a rotating flush arm under a stainless steel hood and four wheels for smooth transportation. The spray gun is not included. Rectangular model on request.
